

Risk Framework Implementation

Master the art of implementing a risk management framework that seamlessly integrates into your organisation's ways of working. You'll learn to shape risk culture, engage stakeholders, and embed risk into strategic decisions and everyday operations. Gain practical insights into reporting, metrics, assurance, and leveraging tools and technology to continuously review and enhance your framework.

Content

- Roles & responsibilities
- Influencing risk culture
- Integrating risk & BAU
- Risk champions
- Reporting
- Assurance
- Reviewing & improving
- Tools & technology

Who should attend?

This course is ideal for:

- Emerging risk leaders
- Risk transformation teams
- Anyone experiencing challenges with implementing risk management in their organisation.
